2.8/2.13 No compensation is available. All modules are must-pass modules and therefore students must achieve a pass mark of 40 per cent.

3.1-3.5 To progress from level 4 to level 5, and from level 5 to level 6, a student must normally have passed at least 120 credits. However, the assessment board may decide to exceptionally allow students to progress carrying a reassessment to be completed without attendance if they have achieved at least 90 credits with the remaining credits in the 30-39 per cent range. Each decision will be at the discretion of the relevant assessment board and will be based on the board's confidence in the individual student's competence to progress and pass.

5.3 Students may request a deferral (delay) in submitting assessments or sitting formal examinations. This means that a student can take the assessment at a later date than scheduled without it having an effect on reassessment opportunities. It is treated as a first attempt and the module component mark is not capped. Normally, students will be automatically registered to take deferred assessments at the first opportunity provided. (33 calendar days from your original submission date)

7.8, reassessment opportunities for students entering the university with RPL will be in proportion to their study at the university compared to the full programme of study. This information will be provided at initial registration with the university or as soon as possible thereafter. (Reg 181, Levels 5,6,7 academic regulations)

Single tier assessment boards will continue to be in operation (as per Appendix 1, Levels 5,6,7 academic regulations)
